## **DETAILED ACTION**

### ***Response to Arguments***

1. Applicant's arguments with respect to claims 1-26 have been considered but are moot in view of the new ground(s) of rejection.

### ***Claim Rejections - 35 USC § 103***

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-26 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kontio et al. (Kontio), U.S. Patent No. 6,487,410.

Regarding claims 1-26, Kontio discloses an information handling system for providing directions to a wireless unit for improving reception, comprising: logic for determining a target location for improved communication for the wireless unit based in part on information representing a recent position of the wireless unit, wherein changing a position of the wireless unit from the recent position to the target location is more likely to result in better reception and transmission of wireless signals to and from a wireless access point (col. 4, line 13 to col. 5, line 21 and col. 7, line 8-33).
